

# 6-Week Teaching Plans for Mathematics and English (Table Format)

**Mathematics (Course Code: AMAxxxx)** | Class Time: Tuesday, 8:30-10:30 | Exams: Week 3 (Midterm), Week 6 (Final) | Homework: 2 Assignments

Week	Teaching Content	Tasks & Assessments
1	Overview of the course framework, key concepts of knowledge1, and basic application methods. Guide students to build initial understanding and lay a theoretical foundation.	Preview the core content of knowledge1; no homework assigned.
2	Deep dive into the principles and extension of knowledge1, combined with typical examples to explain problem-solving ideas and skills. Organize in-class practice.	Assign Homework 1 (focus on knowledge1 application; 5-8 independent practical questions).
3	Review key points of Week 1-2, answer students' doubts about knowledge1 and Homework 1.	Conduct midterm exam (written test, 100 points); return and comment on Homework 1 post-exam.
4	Introduce advanced knowledge related to knowledge1, connect with practical scenarios. Discuss midterm exam difficulties and common mistakes.	Assign Homework 2 (integrate basic & advanced knowledge1; include case analysis questions).
5	Systematically review all course content, strengthen weak links. Review	Revise Homework 2; complete final exam mock exercises.

	Homework 2 and analyze typical errors.	
6	Conduct final exam covering 6-week content (emphasis on knowledge1 application & integration). Summarize the course and give follow-up suggestions.	Conduct final exam (written test, 100 points); announce results and course summary.

**English (Course Code: ELCxxxx)** | Class Time: Thursday, 13:30-15:30 | Exams: Week 3 (Midterm), Week 6 (Final) | Homework: 2 Assignments

Week	Teaching Content	Tasks & Assessments
1	Introduce course objectives (listening/speaking/reading/writing related to knowledge1), conduct pre-assessment. Teach basic vocabulary and expressions of knowledge1.	Memorize core vocabulary of knowledge1; preview next week’ s reading material.
2	Integrate knowledge1 into reading/writing training; analyze related English articles, guide short paragraph writing. Organize in-class oral discussion.	Assign Homework 1 (200-word essay about knowledge1; finish after-class reading exercises of knowledge1).
3	Review Week 1-2 vocabulary, expressions and language points; correct Homework 1 mistakes.	Conduct midterm exam (listening/reading/writing, 100 points); review exam content and summarize weak points.
4	In-depth listening training (knowledge1-related dialogues/passages); teach complex sentence	Assign Homework 2 (listen to knowledge1 passage & write summary; complete formal email related to knowledge1).

	patterns for writing optimization.	
5	Review Homework 2, analyze listening/writing errors. Conduct final exam mock test (comprehensive format).	Correct mock test mistakes; strengthen difficult vocabulary and sentence patterns of knowledge1.
6	Conduct final exam (comprehensive listening/speaking/reading /writing assessment, knowledge1-focused). Summarize learning progress and give recommendations.	Conduct final exam (100 points); collect students' course feedback.
